

## SECURE ONLY THEIR LUXURIES

From England And Are Not  
Worrying About Blockade.

### FARMERS ARE INDEPENDENT.

Can Raise All They Need and Blockade of  
Ports Does Not Hurt Them in the  
Last - Transvaal War  
News.

[News-Democrat Leased Wire Service.]  
Brussels, Jan. 1.—Dr. Leyds, the  
Transvaal agent in Europe, says the  
Transvaal and Orange Free State have  
no reason to fear the result of Eng-  
land's commercial blockade. The re-  
publics, he says, are dependent upon  
Europe for luxuries only, such as En-  
glish cloths, wines, etc., which can be  
easily dispensed with by people who are  
struggling for liberty. He likens the  
Boers to the Americans when they de-  
rived themselves of tea at the out-  
break of the revolution. He says that  
the stories of crops in the republics rot-  
ting in the ground for lack of men to  
gather them are absolutely false. There  
are sufficient old men, foreigners and  
blacks, to gather all the crops. In con-  
clusion, Leyds says: "We have enough  
arms and ammunition to fight for sev-  
eral years. Twenty-one years ago we  
had only six cartridges per man. We  
have now a plentiful supply. The Eng-  
lish will be the first to give up, for they  
want our best supplies of ammuni-  
tion."

### WAS SHARP SKIRMISHES.

Capetown, Dec. 31.—(Delayed.)—A  
force, under Captain Goldworthy, left  
Dordrecht, Cape Colony, today, and  
successfully encountered the Boers, re-  
sulting in a small party of British who  
had been hemmed in and cut off during yester-  
day's engagement at Lafus Changers  
Nek. Captain Montmorency, recon-  
noitering yesterday north of Dordrecht  
met a stronger force of Boers than ex-  
pected, in the vicinity of Lafus Changers  
Nek. The Boers opened fire and the  
British replied. The engagement lasted  
six hours, when the Boers receiving  
reinforcements, Montmorency was  
compelled to retire eight miles into  
Dordrecht. When the signal to retire  
was sounded some of Montmorency's  
men refused to desert Lieutenant War-  
ren, who had been wounded. The little  
force kept the Boers at bay all night.  
Their horses were shot under them  
and several of them were wounded.  
Goldworthy's relief party came in the  
nick of time.

### BOERS ADVANCE.

Capetown, Dec. 31.—(Delayed.)—The  
next engagement of importance is ex-  
pected at Colesberg between the Orange  
Free State troops and the force under  
General French. The British are at  
Rensberg, only four thousand yards  
south of the Boer camp. Today, the  
Boers advanced, driving in the British  
outposts, who report that the enemy  
number 2,000.

### POLICE RECRUITED.

Pretoria, Dec. 30.—(Delayed.)—The  
Pretoria police force, originally num-  
bering 600, which returned here after  
losing half its number in Natal, has re-  
cruited to its full strength and proce-  
ded to join General Cronje at Modder  
river.

### ARMSTRONG GUNS.

Capetown, Jan. 1.—The Argus says  
that six large Armstrong guns and six-  
teen ammunition wagons have reached  
Pretoria via Delagoa Bay.

### GETTING HORSES.

Bombay, Jan. 1.—The war office has  
accepted an offer made by the Maharaja  
of Kashmir to furnish eighty trained  
battery horses for use in South Af-  
rica.

## GEORGE BULLINGER,

Well Known Massillon Man, Is  
Dead—Other News From  
the West End.

### Special to News-Democrat.

Massillon, Jan. 1.—Just as the mid-  
night bells were ringing out the old year  
and welcoming the new, the spirit of  
John George Bullinger, one of Massil-  
lon's oldest and most highly respected  
residents, passed to the land where time  
is not marked by years or centuries.  
A general breakdown due to old age was  
primarily the cause of death.

George Bullinger, as he was best  
known, was 75 years of age. He was  
born in Hexheimer, Germany, in 1824.  
At the age of 12 years he came to Amer-  
ica with his parents and located in Mas-  
sillon, where he has lived ever since  
with the exception of a few years spent  
at Navarre and Canal Fulton. In his  
younger days he was an undertaker and  
cabinet maker, leaving these employ-  
ments to take a position with Russell &  
Co., which he occupied until about  
twelve years ago, when he retired from  
active work. On October 25, 1898, Mr.  
Bullinger was united in marriage to  
Miss Hannah Cookhoffs, of this city,  
and the golden wedding anniversary was  
celebrated by the happy old couple  
one year ago. To the union were born  
four children, who with the grief-stricken  
wife and mother survive. The child-  
ren are Louis Bullinger, of Canton; The-  
odore Bullinger, New York; Frank Bul-  
linger, Akron, and Miss Laura Bullin-  
ger, of this city.

Brother Bullinger was through life a  
child. His late residence is located at  
children. First R. Street in the strong  
saloon. First R. Street to stand by the  
cath. Charles R. Street to stand by the  
23—Anna E. G. Street to stand by the  
her. Judge Day Street to stand by the  
Washington. Her husband died Wednesday.

24—Robert M. Street to stand by the  
board of education. Mr. and Mrs. Jacob  
brings Horner Street to stand by the  
25—Attorneys for number of guests were  
to attack the inde-  
defeated Fat Kemp  
26—Gibson and R.

entertained. A royal feast was served  
and Mr. and Mrs. Snyder received many  
appropriate presents.

### NO PROGRESS.

Massillon, Jan. 1.—Brewer Schister of  
the Millport brewery, stated to a News-  
Democrat reporter today that no pro-  
gress had been made in securing a loca-  
tion for his contemplated new brewery  
in this city.

### DAVIS WILL LIVE.

The condition of Fireman Davis, who  
was injured in the wreck at Dalton  
Thursday is so much improved that  
Dr. Culbertson, the attending physician  
says he will recover. Fellow trainmen  
have been at the bedside of the injured  
fireman since the accident which nearly  
ended his career.

## LIFE SAVERS RESCUE THEM.

All On Board Taken From  
the Stranded Steamer.

### HAILED FROM BRAZILIAN PORT

Had No Passengers On Board When the  
Vessel Struck the Rocks—  
Heroic Work of  
Rescuers.

[News-Democrat Leased Wire Service.]  
Dungeness, Dec. 30.—Early today, the  
life savers succeeded in establishing  
communication, by means of a rocket  
apparatus, with the big liner which  
went ashore late yesterday in East bay,  
between Dungeness and Dover. It was  
learned that she was the Pelotas, of  
the Hamburg-American line, which  
sailed from Santos, Brazil, December  
7, for Rotterdam and Hamburg. The  
ship's officers signalled that they were  
in urgent need of assistance but as yet  
no life boats have been able to breast  
the terrific sea to reach the stranded  
vessel. The wind has abated somewhat  
this morning but the heavy sea con-  
tinues. The life savers have made sev-  
eral heroic attempts to go to the ship,  
but their boats were hurled back on  
the beach. The vessel's position is  
perilous and she cannot stand the  
pounding much longer. The gale  
which has blown for two days is one  
of the most severe ever known in the  
English channel. The South Sands  
Head lightship is adrift and is flying  
signals of distress. The Pelota's cargo is  
being jettisoned, preliminary to an at-  
tempt to refloat her at the next tide.  
It is believed that lives have been lost,  
although none of the passengers has  
been taken off. It is stated the vessel's  
stack is broken.

Dungeness, 2 p. m.—The passengers on  
the stranded liner, Pelotas, who num-  
bered 620, are being landed and sent to  
Dover.

### CREW SAVED.

Dungeness, Dec. 30.—All on board the  
steamer Pelotas have been taken ashore  
without an accident.

### NO PASSENGERS.

London, Dec. 30.—A dispatch from  
Dover says the steamer Pelotas ashore  
in East bay, had no passengers aboard  
but was loaded with a full cargo of  
grain.

### A FEW WILL CONVINCE.

Can Be Sure You Are On the Right  
Track.

A Feeling of Security That Any Person  
Can Be Very Thankful to Have.

There is a feeling of security in using  
Morrow's Kid-Ne-Olds. A few doses  
will convince you that you are on the  
right track. They act quickly and  
pleasantly; they are not at all hard  
to take, and are conveniently put up in  
wooden boxes so that you can carry  
them in your pocket and use them  
while at work. You do not have to  
stop work while using Kid-Ne-Olds.  
They have done a great deal of good for  
a vast number of people here in Can-  
ton.

L. M. Brady, 1425 East North St.,  
Canton, O., says: "I have suffered  
for about three years with severe back-  
ache, also with nervousness. I think  
my liver was torpid for I was bilious  
and had spells of dizziness. Morrow's  
Kid-Ne-Olds and Liver-Lax being recom-  
mended so highly for such troubles  
I decided I would try them. They  
greatly relieved me of all my ailments  
and I now feel better in every respect."  
Morrow's Kid-Ne-Olds are not pills,  
but Yellow Tablets and sell at fifty  
cents a box at all drug stores and at  
M. A. Fisher's drug store.

Morrow's Liver-Lax are small red  
grainules and sell at twenty-five cents  
a box.

Mailed on receipt of price. Manufactured  
by John Morrow & Co., Chem-  
ists, Springfield, Ohio.

## FOUR KILLED.

Boiler Lets Loose and Employes  
of Contractors Are  
Dead.

[News-Democrat Leased Wire Service.]  
Lancaster, Pa., Dec. 30.—By the ex-  
plosion of a boiler near Elizabethtown  
this morning four men lost their lives.  
The names of the dead are, W. Sher-  
bain, Donald Halderman, Burt Harris,  
colored, and an unknown Italian. The  
victims were employed by the firm of  
Kell & Crofton, contractors. The body  
of the Italian was found 150 feet from  
the scene of the explosion.

### Probate Court.

The guardian of Harry W. and John  
H. Leu, of Massillon, has filed his  
fourth account.

An inventory has been filed in the es-  
tate of Hugh D. Brown, of Bethlehem  
township.

Tenth account has been filed in the  
estate of Mary Piero of Canton.  
Final account has been filed in the es-  
tate of Catherine Kramer, of Canton.  
First account has been filed in the es-  
tate of Charles M. Graham, of Can-  
ton.

The estate of Josephine Swanson,  
of Canton, the estate has been ordered  
sold.

The will of Sarah Zollars of Perry  
township, has been probated.  
The will of Joseph Smith, of Perry

township, has been probated and the  
widow cited to elect.  
Anna Fox Knoll of Washington town-  
ship, has been appointed administrator  
de bonis non of David Fox.

## MINE CAVED IN.

Two Men Meet Death by an  
Accident That Happened  
in Kansas.

[News-Democrat Leased Wire Service.]  
Galena, Kas., Dec. 30.—In a cave-in at  
the Robin's mine, last night, John  
Rhodes and Harvey Sparks were  
killed.

## THAWED DYNAMITE.

Explosion Near Pittsburg Due  
to the Cause That Has  
Killed Others.

[News-Democrat Leased Wire Service.]  
Pittsburg, Dec. 30.—This morning the  
whole community in the vicinity of  
Homewood and Murray avenues, and  
the boulevard, East End, was terrified  
by the explosion of a quantity of dynamite  
used in blasting. Five Italian la-  
borers were badly injured and two of  
them may die. The injured men were  
engaged in thawing the frozen explo-  
sive. Forty other laborers were pros-  
trated by the concussion.

## FABLED ACCOUNT OF A KLONDIKE.

Old Timer Tells How Metal  
Was First Discovered.

### BOYS FOUND A STONE

That Is Declared to Have Given the First  
Clue That Led to the Finding of  
What Is Said to Be  
Pure Metal.

The alleged production of gold from  
the hills which prominently form the  
environment of the village of Malvern,  
in Carroll county, is causing a great  
deal of excitement among the villagers  
at the present time on account of recent  
assay reports of the ores taken from  
Shanty Hill mine, and which ores are  
shown by assays to contain as high  
as \$44.27 of gold to the ton of ore. The  
property formerly was owned by Al.  
Wortman, but new prospectors have  
seized upon the mine and it is stated  
that a new set of machinery for ore  
crushing and refining of metal, has been  
purchased to supplant the crude  
machinery at first used. It is two  
years since the first gold fever occupied  
the minds of the villagers and at that  
time assay reports were circulated  
showing gold as high as \$67 a ton.  
Naturally the value has fallen some-  
what and the average is a great deal  
less. The discovery of the mine known  
as the "Shanty Hill mine," has a little  
history attached thereto which reads  
like fiction. Among the older citizens  
there has always existed a vague idea  
that a large amount of gold has been  
hidden in the hills in the surrounding  
country. Two brothers worked for  
nearly a year digging great holes in  
the hillsides, where fable asserted the  
sordid gold lay. Other persons resumed  
the hunt for the treasure when the  
first fellows laid down their spades.  
Finally a rock was discovered by two  
lads who were romping about among  
the trees a short distance from what  
was known as the Indian cave. Acci-  
dentally one of the boys stumbled and  
scraped some moss off the side of of the  
rocks and there was disclosed cut in  
the stone the letters "J. L." and the  
figures "69." An old story related by  
a pioneer was to the effect that the  
hidden gold lay at an angle with this  
rock and a certain tree, and that im-  
bedded in the tree would be found a deer  
horn. The property was immediately  
leased and a search begun for the tree.  
Cutting into the bark of a tree, one day  
there was discovered by a prospective  
gold hunter the deer horn, and the tree  
stands immediately behind the rock.  
Measurements in certain directions  
were made and it was decided to open  
the Indian cave. After digging a long  
tunnel the men left the cave and started  
right into the face of the rock cliff,  
which is a short distance away, and  
this is where they allege they found the  
first gold. Assays were made on be-  
half of the lessees as well as citizens  
and they were published all over the  
country, and the find was designated as  
the "Ohio Klondike." The mine has  
changed hands numerous times since  
then, and it is stated that the present  
owners will sink many thousands of  
dollars into the hole already dug  
nearly 200 feet in depth to secure the  
precious metal. A News-Democrat  
reporter visited the mine recently and  
he was informed that the mining busi-  
ness was to be resumed with more  
energy than ever before.

### PARALLEL TO THE CASE.

"Another interesting matter which I  
came upon today, and which seems  
prophetic of this case, is contained in  
an argument of Senator, (then Representa-  
tive) Burrows, of Michigan, upon the  
Cannon case. Burrows demurred from  
the frequent allegation that the house  
might deal with a territorial delegate  
upon the charge of polygamy, but not  
with a member from a state. He in-  
sisted that the house was fully  
empowered to say whether a member  
guilty of an infraction of the law, or  
being otherwise unfitted for a seat in  
the house, should be admitted merely  
because he had secured a regular  
certificate of election, though he might  
be an idiot, a lunatic or a leper, or just  
out of prison, where he was confined for  
a high crime.  
"He had no doubt that the house had  
as complete power over the admission  
of a representative elected by a state  
as over a delegate from a territory, and  
I am also of that opinion. Certainly  
there can be no doubt in the Roberts  
case, and I do not think anyone will  
argue to the contrary in the considera-  
tion of it by the house."

Cantonians registered at Cleveland  
hotels Thursday were B. S. C. McGrew,  
J. A. Higley, H. C. Cavanah, P. H. Rut-  
ledge, A. H. White, A. A. Oldham, J. M.  
Campbell and L. C. Bonnot.

Mrs. Sardou is a woman of much  
literary ability. She is a recognized  
historical costume expert, and has been  
a great help to her husband in mount-  
ing many of his plays.

## TAYLER SAYS LONG DEBATE

Will Occur Over the Brigham  
H. Roberts Case.

### COMMITTEE MEMBERS DIFFER

Not Assented That They Are at Such  
Variances as a Whole But That  
They Are Apart on Cer-  
tain Details.

New York, Jan. 1.—A special to the  
World says: While there is little  
doubt, as has been stated, the mem-  
bers of the special committee having  
in charge the Roberts case will agree  
to a man that the confessed polygamist  
should be refused his seat in the house  
of representatives, it is almost certain  
that each member will deliver an in-  
dividual opinion in regard to the famous  
cause. The matter is so important and  
the facts bearing on it so various and  
complex that members of the committee  
say it is quite probable no two may  
agree on all the points, although they  
might be in entire harmony upon the  
general proposition that the Utah man  
cannot be permitted to take his seat.

"There were several reports, or opin-  
ions, from the committee which con-  
sidered the case of George Q. Cannon,"  
remarked Chairman Tayler, of the  
Roberts committee, today. "There was  
a majority report, a report differing  
from this by a minority, and five or six  
individual opinions upon various points  
in the case. I think it very possible  
that in this Roberts case each member  
may have something to say upon some  
point in relation to which he differs  
from all his associates on the com-  
mittee. Argument will be made before  
the committee on January 4. Ex-Speaker  
Carlisle will be of counsel opposed to  
seating Roberts.

### SOME TIME BEFORE A VOTE.

"I think the arguments may be con-  
cluded within one day, but doubtless  
a week or more may elapse before the  
reports and opinions may be prepared  
for presentation to the house. The  
committee will sit in executive session,  
and there will no doubt be a great deal  
of talking in regard to the character of  
the general report. It will be the mid-  
dle of January before the case comes up  
in the house.

"Yes, I am free to say that so far as  
I myself am concerned I shall lay minor  
stress upon the moral phase of the  
matter, and base my argument mainly  
upon the deliberate, persistent, defiant  
infraction of the law by Roberts. The  
closer I examine into the multitude of  
acts bearing on the case the more I am  
astonished that this man should be  
here asking for a seat in the house, and  
that his state should have elected him  
as its representative. Only today, in  
analyzing more carefully than I have  
done hitherto, the terms of the com-  
pact between the state and the nation,  
I discovered points vitally bearing on  
the case to which I had not given their  
full import.

"For instance, in the amnesty pro-  
clamation of President Harrison it is  
expressly stated that the boon of a  
pardon is granted only to those who  
have not been guilty of polygamous  
practices since the compact stipulated  
in the enabling act, and who shall not  
offend in the future.

### BASIS OF THE PETITION.

"The petition for amnesty was based  
upon the argument and the oft re-  
iterated assertion that polygamous  
cohabitation had ceased, that there  
would be no more of it and no further  
polygamous marriages. The enabling  
act was passed upon a solemn as-  
surance that polygamy was dead, and  
much objection was made to the inser-  
tion of the phrase "polygamous and  
unlawful cohabitation" in that act, it  
being argued that the monstrous  
system was dead and there was no use  
in such verbal suggestion and severity.

"Representative Mahon, of Penn-  
sylvania, offered an amendment, pro-  
viding that congress should have un-  
limited power in the matter of seating  
in congress persons elected by the peo-  
ple in Utah, which was almost prophe-  
tic of the Roberts case, but the con-  
viction was so strong that "polygamy  
was dead" that this amendment was  
lost. No one dreamed of the possibility  
of such a performance as the election  
of a confessed and defiant polygamist  
as this man and so it was magnani-  
mously concluded 'not to rub it in' on  
the poor Mormons.

"Notwithstanding all this admirable  
charity toward the Mormons, there is  
no mistaking the law and the compact,  
any more than there is the astounding  
defiance of the law by Roberts, who  
under the mildest interpretation of the  
amnesty proclamation, is an unpardon-  
ed lawbreaker, illegally exercising the  
rights of a citizen and illegally elected  
to office.

### PARALLEL TO THE CASE.

"Another interesting matter which I  
came upon today, and which seems  
prophetic of this case, is contained in  
an argument of Senator, (then Representa-  
tive) Burrows, of Michigan, upon the  
Cannon case. Burrows demurred from  
the frequent allegation that the house  
might deal with a territorial delegate  
upon the charge of polygamy, but not  
with a member from a state. He in-  
sisted that the house was fully  
empowered to say whether a member  
guilty of an infraction of the law, or  
being otherwise unfitted for a seat in  
the house, should be admitted merely  
because he had secured a regular  
certificate of election, though he might  
be an idiot, a lunatic or a leper, or just  
out of prison, where he was confined for  
a high crime.  
"He had no doubt that the house had  
as complete power over the admission  
of a representative elected by a state  
as over a delegate from a territory, and  
I am also of that opinion. Certainly  
there can be no doubt in the Roberts  
case, and I do not think anyone will  
argue to the contrary in the considera-  
tion of it by the house."

Cantonians registered at Cleveland  
hotels Thursday were B. S. C. McGrew,  
J. A. Higley, H. C. Cavanah, P. H. Rut-  
ledge, A. H. White, A. A. Oldham, J. M.  
Campbell and L. C. Bonnot.

Mrs. Sardou is a woman of much  
literary ability. She is a recognized  
historical costume expert, and has been  
a great help to her husband in mount-  
ing many of his plays.

## COMING.

Dr. France's chief consulting and examining physician of The France  
Medical Institute, by request will visit the following towns on dates named.  
Consultation free and invited.

Canton, O., Hotel Yohe,

Thursday, January 4th, 1900.

Akron, O., Empire House, Friday, Jan'y 5th.

Alliance, Hotel Keplinger, Wednesday, Jan'y 3rd.

FROM 9 A. M. TO 4 P. M.

## OUR GERM-DESTROYING VAPORIZER.

## Consumption, Asthma and Catarrh Cured at Last.

Our great invention cures by destroying the germs which lodge in the air-  
passages and cause the disease. It impregnates every particle of air breathed,  
yet leaves it free from moisture, thus enabling this powerful germ destroyer to  
reach every part of the air passages in the head, throat, and lungs, where it at  
once kills the bacilli which cause Catarrh, Deafness, Asthma, Coughs, Colds,  
Bronchitis, and Consumption. It cures quickly and permanently. There is  
no guesswork. It is guaranteed. The afflicted are invited to call and investi-  
gate; the doctors will fully explain the treatment, free of charge.

## THE FRANCE SYSTEM OF TREATMENT.

The Science of Medicine has improved wonderfully during the last few  
years, and for this great progress we are indebted chiefly to those physicians  
who have confined their researches to a comparatively limited field.

For twenty years Dr. France, aided by many trained assistants, has been  
investigating in a new and original manner the nature and treatment of ob-  
scure and chronic diseases.

During this period a complete record has been preserved for study, refer-  
ence and comparison, of nearly fifty thousand affections. The study of this  
vast number of disorders has led to many discoveries regarding their true na-  
ture and best methods of treatment. Our remarkable success in this com-  
paratively limited field has resulted in an immense practice. We have constantly  
under treatment hundreds of patients from every state and territory in the  
United States, Canada, British Columbia and Mexico. Dr. France is aided by  
a large corps of trained medical assistants, and also by many consulting phys-  
icians, among whom are some of the ablest specialists.

After twenty years' experience, the France System of Treatment has been  
found most successful in the cure of chronic diseases. It is a harmless home  
treatment, and acting as an adjunct to the skill of the France physicians, the  
following diseases quickly give way to its remarkable curative effects:

### Kidneys and

### Bladder.

The kidneys and bladder are the great blood purifiers of the system, as they  
carry off the waste and poisonous matter that would otherwise clog and vitiate  
the whole economy. When these organs are impaired direful results soon fol-  
low. If your urine is highly colored, milky, or very clear and watery; if it is passed often or with  
pain; if it is too scant or too abundant; if it casts a sediment of white,ropy, or brick-dust appear-  
ance; if you have pains in the back—do not neglect these warnings of danger. The France Sys-  
tem of Treatment cures all disorders resulting from deranged kidneys and bladder by restoring  
these organs to the performance of their proper functions, thus eliminating disease from the  
system by nature's own process.

### Diseases of the

### Digestive Organs.

The following symptoms are characteristic of a diseased condition of  
the stomach and liver, and should receive prompt attention: Souring of  
the food, with a bad taste in the mouth; heartburn, or pain in the region  
of the heart; hot, dry feeling in the mouth and stomach after eating; pain or tenderness in the  
region of the stomach; eructations of gas or of sour, bitter, or tasteless water; pain or tenderness in the  
right side; numbness or pain in the right arm, near the shoulder; dizziness or a dull, heavy sen-  
sation in the head; itching or heaviness around the eyes, with blurred vision; desquamation of a  
morbid film of death. The France System of Treatment cures, because the remedies are prepared  
to meet the special needs of each case.

### Lung Diseases.

If you have weak, tender, or irritable lungs; if you take cold easily, or have  
pains in the lungs or chest; if your hands or feet are unusually hot; if you  
have a tickling sensation in the throat and cough frequently, whether the cough is short and dry,  
or loose, with expectoration; if you are losing flesh and strength—you have in time to waste in  
experimenting with cough syrups, and other such remedies. The France System of Treatment cures, if  
you come in time, the France System of Treatment will cure you, as it has cured hundreds of others.  
If you delay too long, nothing can save you.

### Catarrh.

Any person who takes cold easily is sure to have catarrh, and the only way to cure  
catarrh is by the use of both local and constitutional treatment, adapted to each  
individual case, so as not only to heal the diseased mucous membrane, but also to correct the  
constitutional tendency to colds. Neglected catarrh affects the ears, causing deafness and  
deafness; the eyes, causing suffusion and partial loss of sight; the throat and bronchial tubes, causing  
cough and bronchitis; the stomach, causing indigestion, flatulence, and other disorders; the rectum,  
causing inflammation, burning and scalding urine, etc.; the rectum, vagina, and wom-  
an, causing inflammation, ulceration, and mucous discharges. Permanent cures are effected by the  
France System of Treatment, because it is based upon long and successful experience, aided by  
the best modern facilities.

### Nervous Diseases.

Diseases of the Nervous System require the highest degree of medical  
skill for successful treatment. Epilepsy, Chorea, St. Vitus Dance, Par-  
alysis in its various forms, Neuritis, Spinal Irritation, Nervous Debility, Nervous Prostration, and  
other derangements or lesions of the nerves, brain, or spinal cord, are usually very obstinate and  
often regarded as incurable. The majority of cases are incurable by the ordinary methods, yet  
they yield readily to the powerful, but beneficent, influences of the France System of Treatment.  
The first thing in the treatment of these diseases is to locate the cause of the disease, which is  
often obscure. Science enables us to accomplish this, as well as to select the means of cure.

### Weakness of

### Women.

Probably two-thirds of all American women suffer with some of the diseases or  
derangements peculiar to the sex. Many of these sufferers think that there is no  
remedy, and that they should be afflicted to a greater or less ex-  
tent in this way. This is a mistake that has resulted from the lamentable failure of the ordinary  
remedies of treatment. Women and girls who have any of the following symptoms should not  
despair, as they can be cured by the France System of Treatment: Numbness or coldness of one leg  
or foot, or both; pains in the lower part of the back; weakness or a bearing down or dragging  
sensation; sideache or pains in the loins, groins or across the lower bowels; irregularities, either  
too soon or too long delayed, too little or too profuse; leucorrhoea or any unusual discharge,  
aching, inability to retain urine, hot, burning or scalding urine; sensation of a lump rising in the  
throat; nervousness and excitability; a hot spot or pain on the top of the head; capricious ap-  
petite; shortness of breath or sinking spells; sallow complexion; a dark circle under the eyes; loss  
of strength and vitality; languor and indifference. These and other distressing but too common  
symptoms, are not natural to a healthy woman, and are to be endured through ignorance,
